## **DETAILED ACTION**

### ***Continued Examination Under 37 CFR 1.114***

A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 09/06/2007 has been entered.

## **EXAMINER'S AMENDMENT**

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. Bradley L. Smith on 09 November 2007.

The application has been amended as follows:

In claim 1, lines 18-20, "said second sealing ring surrounding and overlapping at least one thread of the externally threaded portion of the screw-in part" has been replaced by --said second sealing ring surrounding and overlapping and in contact with at least one thread of the externally threaded portion of the screw-in part--.

In claim 3, line 2, "second annular portions" has been replaced by --second planar annular portions--.

In claim 5, line 4, "on the screw-in part, can be screwed into" has been replaced by --on the screw-in part can be screwed into--.

In claim 6, lines 2-3, "the first annular portion is designed to be smaller in diameter than the second annular portion" has been replaced by -- the first planar annular portion is designed to be smaller in diameter than the second planar annular portion--.

In claim 8, lines 19-21, "wherein the second sealing ring surrounds and overlaps at least one thread of the externally threaded portion of the screw-in part" has been replaced by --wherein the second sealing ring surrounds and overlaps and contacts at least one thread of the externally threaded portion of the screw-in part--.

In claim 8, line 25, "upper sealing chamber" has been replaced by --upper sealing ring chamber--.

In claim 10, line 2, "lower annular portions" has been replaced by --lower planar annular portions--.

In claim 13, line 2, "the upper annular portion being smaller in diameter than the lower annular portion" has been replaced by --the upper planar annular portion being smaller in diameter than the lower planar annular portion--.

The following is an examiner's statement of reasons for allowance:

As to claim 1, lines 18-20, the closest prior art of Neuschotz (U.S. 3,212,792) discloses the claimed adapter assembly with the exception that the second sealing ring surrounding and overlapping and in contact with at least one thread of the externally threaded portion of the screw-in part.

As to claim 8, lines 19-21, the closest prior art of Neuschotz (U.S. 3,212,792) discloses the claimed adapter assembly with the exception that the second sealing ring surrounds and overlaps and contacts at least one thread of the externally threaded portion of the screw-in part.

There is no teaching or suggestion, absent the applicant's own disclosure, for one having ordinary skill in the art at the time the invention was made to modify the adapter assembly of Neuschotz (U.S. 3,212,792) to have the above mentioned features.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
